A Study about Corrosion of the Pipeline Using TOEFL in Iran Refinery
By: Ahmad Ilkhani

Pub. Year: 2013; Vol.: 2; No.: 1; Pages: 1-9

Application Polyurethane as Coating in Oil and Gas Pipelines
By: Justine Odong

Pub. Year: 2013; Vol.: 2; No.: 1; Pages: 10-14

Experimental Study of Factors Affecting Corrosion in Gas Wells Using Potantio Acetate and Galvan Acetate Tests
By: Neelam Sharma & S. P. Joshi

Pub. Year: 2013; Vol.: 2; No.: 1; Pages: 15-21
Normal Paraffin Production Process of Kerosene in Oil Refinery Company  
By: Marcin Kozak  

Pub. Year: 2013; Vol.: 2; No.: 1; Pages: 22-30

Reduction of Greenhouse gases emission and effect on environment  
By: Somack Zolghadr  

Pub. Year: 2013; Vol.: 2; No.: 1; Pages: 31-38

Investigating MIDEA Corrosion Treatment on Carbonic Simple Steel in Amin Unit of Isfahan Refinery  
By: Mohammad Reza Saboktakin  

Pub. Year: 2013; Vol.: 2; No.: 1; Pages: 39-50
Investigation Results of Properties of Stripe Coatings in Oil and Gas Pipelines
By: Abad SHAH

Pub. Year: 2013; Vol.: 2; No.: 1; Pages: 51-57

Preventing Hydrate Formation in Gas Transporting Pipe Lines with Synthetic Inhibitors
By: SYED Ahsan

Pub. Year: 2013; Vol.: 2; No.: 1; Pages: 58-63

Review Applications to Prevent Corrosion Reducing Gas Pipe Line
By: Ibeawuchi, I. I

Pub. Year: 2013; Vol.: 2; No.: 1; Pages: 64-71

The Comparison of Increasing Method for Petroleum Pits Output (Fluids Dynamic)
By: C. M. Agu
